

Feminist Pest Control

Intersectional Pest Management Solutions

www.feministpestcontrol.com

What my services entail:

- Individualized approaches that take into account identity pressure points (gender, race, sexuality, class, [dis]ability/mobility, cultural/religious specificity, et al.), budgetary concerns, and personal histories of pest-related trauma.
- A holistic approach that considers the body, mind, and spirit of the humans and the nonhumans involved in the infestation.
- A consideration of environmental justice, toxicity, and multispecies kinship.

What you will receive (all for the single payment of \$0; yes, \$0):

- A consultation either inside your home or virtually through video chat.
- A zine outlining the theories and principles undergirding Feminist Pest Control.
- An individualized report outlining the intersectional pest management solution we have discerned together and a plan for implementation.
- A list of localized resources to aid in solving the issue of infestation.
- A follow up appointment in person or via video chat to confer about the efficacy of the individualized plan.

Date: _____

Name: _____

Street Address (to send zine): _____

I agree to have my case shared on the Feminist Pest Control website, on social media, and in workshops and presentations run by Feminist Pest Control:

- with my name attached.
- anonymously.
- NOT AT ALL. Please keep our conversations and photos between us.

I understand that Feminist Pest Control is not certified by any pest control-related professional boards and that pest problems may not change as the result of engaging Feminist Pest Control for help.

- Yes, but I am literally willing to try anything.
